

LED PROJECTOR HEADLIGHTS

(2018-2020 MUSTANG)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) Pair of Headlights
- (2) ScotchLocks

TOOLS REQUIRED

- 5.5mm, 7mm, 8mm, 10mm,
13mm Sockets
- Socket Wrench & Extensions
- Panel Removal Tool
- Jack & Jack Stands
- Phillips Head Screwdriver

STEP 1

Open the hood. Remove (8) plastic push clips from the radiator cover. Remove the radiator cover from the vehicle.

STEP 2

Remove (2) 5.5mm bolts, as well as (6) 8mm bolts from the top of the bumper cover.

STEP 3

Raise and support the vehicle using a jack and jack stands. Remove the fasteners securing the splash shield to the vehicle. Remove splash shield from the vehicle.

STEP 4

Remove (3) plastic clips on the fender liner on both sides of the vehicle.

STEP 5

From the top of the vehicle, remove (2) 10mm nuts along the inside of the fender.

STEP 6

Unplug the fog lights and turn signals, then remove the bumper cover from the vehicle.

STEP 7

Firmly pull the edge of the bumper down to dislodge the clip holding the bumper to the fender. Lift the bumper away from the vehicle and place on a soft surface.

STEP 8

Remove (3) bolts securing the headlight to the vehicle. Pull the headlight away from the vehicle and unplug the wiring harness from the headlight. Repeat this procedure to the opposite side.

STEP 9

Using the provided ScotchLocks, splice the (1) additional wire into the vehicle headlight harness following the diagram below.

- | | | |
|------------------|---|---------------------------------------|
| Headlight | - | Vehicle Harness |
| Yellow | - | Blue/Green (Driver Side) |
| | - | Yellow/Violet (Passenger Side) |

STEP 10

Install the new headlight to the vehicle reusing original hardware. Re-install the bumper to the vehicle following steps 1-8 in reverse order.

STEP 11

Once re-assembled, turn the adjuster screw with a Phillips screwdriver on the back of the headlight housing to adjust the light beam.

Installation is now complete.
