

Instructions and care

Installation:

1) Align and then attach the two headrest (A) straps around the back of your vehicle's rear seat head rests. Adjust so product is flush with seats and your vehicles cargo area.

2) Once product is aligned, press down on Velcro points (G) to secure the cape. Be aware the Velcro is an added feature, and will only attach to certain seat fabric and flooring. We have also included extra adhesive to be used if needed.

3) The bumper flap (E) is optional and can be secured under the Kurgo label located at the tailgate of your vehicle for on-and-off use. Here you will also find an anchor flap that can be placed underneath your vehicles floor mat for extra stability.

4) The zipper feature (B) allows you to simply unzip for up and down seat movement, without having to remove the entire Cargo Cape.

Cleaning Instructions

Our product cleaning instructions will help ensure that your gear has a long, exciting life. Washing by hand and hang air-drying is the best way to care for your Kurgo products.

Hand Wash Instructions

1. Brush off loose dirt with a dry brush.
2. Spot clean with a damp sponge, cold water, and mild soap. Avoid harsh detergents.
3. If necessary, rinse larger area to eliminate excess soap residue.
4. Hang to air dry (do not machine dry).

NOTICE: Please contact Kurgo directly with any product or return inquiries.
