

VINYL DECAL

(WRANGLER - ALL)

INSTALLATION INSTRUCTIONS

CONTENTS

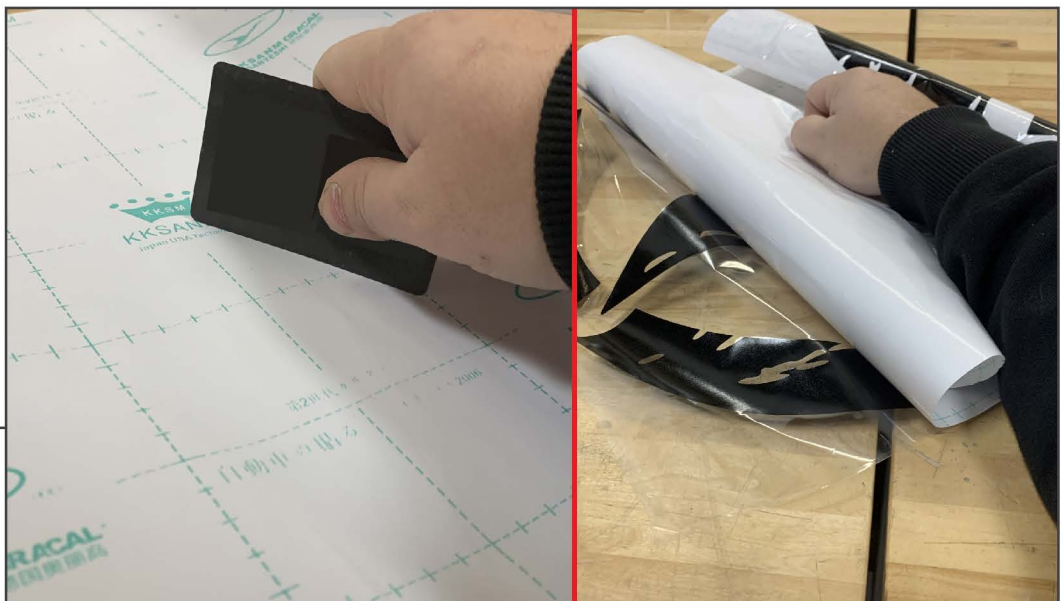

(2) Vinyl Decals

TOOLS REQUIRED

Isopropyl Alcohol
Microfiber Cloth
Soapy Water Solution
Squeegee
Plastic Card

STEP 1

Clean the vehicle of dust/dirt in the area where the decal is desired using isopropyl alcohol and a microfiber cloth.

STEP 2

Using a plastic card, press the vinyl decal onto the transfer tape. Once pressed down, peel the release paper to reveal the decal on the transfer tape.

STEP 3

Spray the decal area of the vehicle with a mild amount of soapy water solution.

STEP 4

Place the decal onto the vehicle and adjust as necessary. Once adjusted, squeegee the decal into the vehicle panel to remove the remaining soapy water solution and promote proper adhesion. Peel the transfer tape from the decal, ensure the decal is properly adhered.

Installation is now complete.
