

# FENDER FLARE EXTENSIONS

(2018-2023 WRANGLER JL - EXCLUDING RUBICON  
HIGH FLARES)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

- (1) LH Front Flare Extension
- (1) RH Front Flare Extension
- (1) LH Rear Flare Extension
- (1) RH Rear Flare Extension
- (24) Plastic Rivets

### TOOLS REQUIRED

---

- Plastic Rivet Install Tool
- Side Cutters

## STEP 1 (FRONT)

Remove the (7) plastic rivets from the edge of the fender flare using side cutters/pry tool.

## STEP 2 (FRONT)

Identify the new fender flare extension, and align to the vehicle to familiarize fitment. Using the included (7) plastic rivets, secure the extension to the fender flare. Ensure the rivets are inserted through all vehicle fender flare layers for proper installation.

Repeat this steps 1-2 for the remaining front flare extension.

## STEP 3 (REAR)

Remove the (5) plastic rivets from the edge of the fender flare using side cutters/pry tool.

## STEP 4 (REAR)

Identify the new fender flare extension, and align to the vehicle to familiarize fitment. Using the included (5) plastic rivets, secure the extension to the fender flare. Ensure the rivets are inserted through all vehicle fender flare layers for proper installation.

Repeat this steps 1-2 for the remaining front flare extension.
