Part# 29920

Parts List

2-Top Support Brackets
2-Middle Support Brackets
2-Bottom Support Brackets
2-Back Support Brackets
4-3/8 x 5 1/2 All Thread Tap Bolts
4-3/8 Lockwashers
4-3/8 Nuts
16-3/8 USS Flatwashers
8-3/8 Wingnuts
2-4" High Side Spacers
4-.360 x 3/8 Black Thread Protectors

Installation Instructions

NOTE!!! System was designed to hold one ax and one shovel. The brackets are adjustable to accept any size shovel or ax. When installing the ax and shovel to the mounts, the ax mounts closest to the roof rack while the shovel mounts outside the ax.

1. The mounting system will mount to any height Wilderness Roof Rack. See figures 1, 2, 3, & 4 for your specific mounting system.
2. Install bottom support bracket and back support plate to roof rack side. Spread tap bolts to their widest position and tighten as shown in figure 4.
3. Position second bracket about 11" or 12" apart and secure to roof rack side.
4. Install ax handle and secure with middle support bracket and wingnuts, as shown in figure 4.
5. Install shovel to middle support bracket and secure with top support bracket and wingnuts.
6. Some adjustment will be required to fit your specific ax or shovel.
7. Re-check tightness of wingnuts on a regular basis or after increased vehicle usage.
